Criminal Prosecution For Packers By Government To Commence Immediately

DEVELOPMENT IN U.S. FOOD PROBES

Federal Grand Jury To Probe For National User and Profiteering Pirates—Extra Session of Legislature Is Necessary In California—Wire News Condensed.

WASHINGTON, Aug. 7.—Development today in the government's efforts to reduce high living costs were:

Announcement that the action against five big meat packing firms would be brought under the criminal and civil sections of the Sherman anti-trust law and under the section of the food control act making unlawful the hoarding of food. Reports from district attorneys over the country that they were proceeding with investigations of profiteering and hoarding and would make arrests wherever facts warranted.

A conference at the White House between President Wilson and the committee appointed by cabinet officials to recommend means of reducing living costs.

Introduction of a joint resolution in Congress proposing a reduction of one billion dollars in federal taxes next year by reducing government expenditures.

Introduction of another resolution in the Senate asking the judiciary committee to determine whether it would be advisable to prohibit temporarily the exporting of food, clothing and other necessities.

Granting of authority to the Postoffice Department to increase the parcel post weight limit from twelve to 125 pounds, so as to facilitate the distribution of surplus army foodstuffs to the people.

A report by the Federal Trade Commission that stocks of food in storage this year were 20 per cent greater than a year ago, despite the fact that prices of practically all foods have shown large increases.

When being bribed, don't take checks. Opportunity knocks, but it won't ring the bell. Be yourself, be natural, and go ahead. Most of us get our bouquets at our funerals. Want ads. won't restore lost manhood. Raise hell and you'll get your share. It's worse to be a pretty man than a homely woman. The man who hesitates is bossed. AMERICAN LEGION ELECTS OFFICERS

American Legion Post No. 10 of Richmond met last night at headquarters and held an interesting session, discussing the coming grand celebration to be held in San Francisco on or about September 2 to welcome the Pacific fleet of warships. A call to all soldiers, sailors and marines will be found in another article in this paper.

The first election of officers was on at the meeting last night and the following comrades were chosen as the first representative officials of Post No. 10:

President, Al. Browning; vice-president, H. A. Vickery; secretary, J. E. McGowan; treasurer, T. H. DeLap; Sergeant-at-Arms, Joe Gardner.

The following executive committee was also elected: R. L. Calfee, Lambert Weir, James Narbett, Henry Hestoffer, Larkin Yonce, Lieutenant Colonel T. Roosevelt.

is to be the guest of Richmond Post No. 10, American Legion, some date in September and will address the members and all others attending upon that occasion. He will be accompanied by Colonel Clark, of Missouri, son of the famous statesman, Lhamp Clark. The Post wishes to make this occasion one long to be remembered and asks the co-operation of all soldiers and service men in doing so.

THE MEAT IN THE PROFITEERING COCOANUT

Richmond, California, August 8, 1919.

President Wilson and U. S. Attorney General Palmer, Washington, D. C.

Honored Sirs:—The News unquestionably represents the heartfelt sentiment of the thirty thousand citizens of this community when it extends to you sincere thanks and appreciation of your recent efforts to reduce the unnecessary high cost of living and to bring to justice the many dealers in the necessities of life who long have been and are now engaged in unlawful and shameful profiteering.

In this connection and while you are "investigating," may we not suggest that you carry your investigations to the point of ascertaining what congressmen, senators and other government officials are stockholders in the corporations engaged in the said profiteering?

Yourselves and several hundred national legislators will receive marked copies of this paper.

Respectfully,

F. J. HULANISKI, Editor.

Police Woman Doing Good Work

Mrs. Bernice McCormick, the police protective officer, appeared before the council and asked as to who she should report, that at present she was working in the dark, and in many cases did not know what to do.

The matter was discussed thoroughly by the council and it was decided that in the future Mrs. McCormick should report to the new chief of police.

Mayor Long stated that while it was true that the protective officer had to a certain extent been working blindly that he knew from reports he had received that she had been doing good work.

Fraud Charged To Martinez Man

That property valued at \$25,000 has been transferred fraudulently and with intent to defraud creditors is the allegation made in a suit filed in the courts at Martinez. The property is known as the Weiss Homestead and Store property, being located at the corner of Ward and Perry streets.

In the suit Gilbert I. Rhodes appears as plaintiff and Lina Weiss as defendant. The suit alleges that Gus Weiss, former prominent resident of Martinez has been adjudged bankrupt at Albuquerque, New Mexico, and that the lot in question here is a part of his estate and should be sold for the benefit of his creditors.

DAILY LOCAL LAFF

There is a certain young man who clerks in a dry goods store in this city, and while never drinking to excess he has always been in the habit of taking a glass of beer or sip of wine occasionally and doesn't know any other system. He happened up at Martinez yesterday; it was hot and he was thirsty. "Say," he said finally to a passer-by, "I'm simply dying of thirst. Isn't there any place in this forsaken town where I can get a drink?" The native eyed him for a moment, and then leisurely pointed his finger. "See that millinery store across the street?" he asked. "Uh-huh." "Wal"—(very laconically)—"that's the only place in town you can't!"

THE CANDIDATES FOR POLICE CHIEF

Inasmuch as the appointment of a new chief of police for Richmond has simmered down to two candidates, and either Mr. Woods or Mr. Gardner will receive the appointment, and the position is an important one to all our people, a few words concerning the two gentlemen who are aspirants for the position will not be out of place.

Mr. Woods, as far as the News is concerned, is a comparative stranger, although he has been in Richmond, employed in various capacities, for some little time now. He was formerly chief of police of the city of Pasadena, and as such, we are informed, gave satisfaction. In this city he has been a guard for the Standard Oil company and also a guard at the municipal wharf, and is now, we understand, employed by the shipyards at Alameda.

Mr. Frank J. Gardner is well known to most old citizens of Richmond, coming here some fourteen or more years ago. He has been engaged in the real estate business here for ten years at one location and has been a successful operator. Mr. Gardner was formerly a machinist by trade, working in San Francisco and being prominently connected with the labor movement there in earlier days. He is a man of family and a home owner here, and his father was one of the old time pioneers of Richmond, coming (Continued On Page 4)

CITIZEN SAYS WE ARE ALL TO BLAME

Richmond Man Points Out Some Unanswerable Logic On H. C. L. and Hands Capital, Labor, Producer, Middleman, Railroads and Consumer a Share of the Blame For Conditions.

Pt. Richmond, Aug. 7, 1919.

F. J. Hulaniski, Editor Richmond News.

Sir:—I read with interest the account of your visit to the local merchants in an effort to track down the H. C. L. It is not surprising that the merchants "pass the buck" to the exportation of food to Europe, because the European trouble is so big and untellable that it makes no sense to look for almost anything, but if any permanent good comes from the investigation of the H. C. L., either by an individual or the nation, it will have to bring a more sweeping indictment and suggest a more drastic remedy than you do. Just offhand I have jotted down some of the classes who are responsible for the H. C. L. and mentioned a few reasons why.

1. The Farmers. Because (a) they over-value their land and add interest on investment to costs. (b) Since the Federal Farm Loan Law has made it possible for them to do so, they have been borrowing too much money and adding interest to costs. (c) They make large profits on almost everything on account of the guaranteed price of wheat. (d) Their methods of farming are very wasteful and inefficient; the percentage of efficiency being less than half the European. (e) They add their income tax and their high cost of labor and equipment to their cost of production.
2. The Transportation Companies. Because (a) They have to meet the extra costs of doing business characteristic of government management. (b) They cross-haul in any direction for which they are paid rather than only directly from producer to market.
3. The Millers, Packers, Canneries. Because (a) Their storage facilities dam the flow from producer to consumer, impeding progress and raising price levels. (b) The interest on money borrowed on stored produce together with the storage expense and depreciation are added to costs. (c) They cause currency to be issued on stored produce which cheapens money to the (continued on page 4.)

BRAINS AND BOWELS

Subscribe for this great family newspaper and
get a ham sandwich! Everybody seems to be
going daffy nowadays over something to eat,
and as eating is the popular fad we do not pro-
pose to lag behind, therefore offer a fine ham
sandwich to every subscriber. This ought to
catch the ladies and we expect that as soon as
this announcement gets out there will be a
large increase in the subscription list, though it
is so big now that it keeps the management
busy hustling funds for white paper.

In looking over the exchange papers finding
their way into this sanctum we note that every
one of them, without exception, contain in every
issue the startling announcement that "delicious
refreshments were served." If anybody has a
few friends call upon them to play cards or pass
away a pleasant evening, the first thing they do
is to feed them. If a lodge wants to hold its
membership or attract attention it proceeds to
dish up a Dutch lunch or a lot of other in-
digestibles. If the church wants to pay the
preacher his salary or put on a coat of paint,
or send a missionary out to convert the wicked
and devilish, the first thing on the program is
to give a series of ice cream and cake socials
and stuff everybody clear up to the Adam's
apple with chicken and sandwiches. It is eat,
eat all the time, day and night, Sunday and
Sunday night, until it is a wonder the people
are not all dead from indigestion. They go to
evening parties and other functions and drink
strong coffee and eat sandwiches, pie and pickles
until they are uncomfortable and can not sleep
the rest of the night, and feel like the devil all
next day, but it is the fad. Therefore, bring
in your kopecks and get this humdinger of a
newspaper for a whole year and a fine ham
sandwich thrown in for good measure to keep
you from starving to death before you can get
to a lunch counter or a social doings.

Some of our contemporaries are giving away
automobiles, wheelbarrows, clocks and all that
sort of junk as subscription premiums, but it
is a doubtful method because people can't eat
them. We intended to club with a number of
splendid literary magazines as a premium, but
after deep consideration have concluded to switch
from brains to bowels, from head to stomach,
feeling that the great general public would
rather have a chocolate social or a ham and
cheese sandwich to anything literary or in-
structive. Education comes secondary to grub.
Subscribe early and avoid the rush!

MORALS AND WIDOWS

A moral reformer of Los Angeles with more
gall than sense was caught with a young widow
sitting on his lap, and they are raising a large
hue and cry about it. We fail to see how hold-
ing a young and pretty widow on one's lap, if
she is willing and that is the extent of the
familiarity, need have any undue influence on a
moral reformer or any other man. We believe
in moral reform, also in holding young and
pretty widows on the lap early and often. The
two need not, in our humble judgment, be
separated in order to produce good results.

TABLETS AND NATURE

A thousand years before Moses received his
tablets of stone on Mount Sinai, King Ham-
murabi received some engraved on black diorite
direct from the Sun-God, and later on in our
own time, about fifty years ago, Joseph Smith got
a bunch of gold tablets out in the walnut for-
ests near Nauvoo, Ill., just across the Missis-
sippi river from Keokuk, Iowa. The tablet business
has been somewhat overdone. Maybe King Ham-
murabi's black stone tablets from the Sun-God
were authentic; so also might have been Moses'
sandstone literature, and also the golden leaves
brought in by Joe Smith, the Mormon. We are
incompetent to judge any of them, except that
the grammar of the Smith tablets was worse
than ours, which is useless. Anyhow, we are
pinning our faith on a Master Mind that lives
and walks the earth in the guise of a bounteous
nature; whose oracles are the tree and leaf and
moon and stars and sun-lit sea and snow-bannered
mountain; whose commandments are not handed
down on tablets of stone, nor yet of gold, but are
written in the human heart. There are great
lessons in the Theology of Nature.

Oakland, Cal., July 8, 1919.

To Whom It May Concern:

I have had bladder and womb trouble for over a year and could get no relief. I have doctored with several doctors and have been in the hospitals at different times, but could get no help.

I finally heard of Dr. Sing through a patient of his who had been cured of piles by the doctor. I went to see him and after taking five weeks of treatment I am nearly cured of my trouble, but am still doctoring with him.

I can never thank or express my appreciation of Dr. Sing and all he has done for me. Sincerely,

MRS. N. M. SMALE,

NECESSITIES DEALERS MUST GET LICENSE

Last night's dispatches indicated that laws will be immediately framed and Federal District Attorneys all over the country instructed to enforce them, relative to the sale of the necessities of life, both on the part of manufacturer, wholesaler and retailer. LANSING TALKS OF PARIS PEACE PACT

WASHINGTON, Aug. 7.—Secretary Lansing told the Senate Foreign Relations Committee today that the American plan for a League of Nations was "not pressed" at Versailles and never was presented to the full peace conference.

GRAFT COIN GIVEN OAKLAND POLICE

Capt. of Detectives Walter J. Petersen admitted under oath that members of the Oakland police department during the time he was chief of police in 1916 collected graft money.

"I know that officers got 'rake offs' from time to time," he declared yesterday under examination.

The hearing, which was to determine whether Petersen permitted the operation of 17 Chinese lotteries, uncollected, as alleged in the charge, was continued to today in order to hear the testimony of Petersen's witnesses.

"I have not received the instructions yet, but I will be glad to get any orders that may result in bringing the profiteering to an end and the gougers to justice. I will be pleased to devote my entire time and energy to an investigation of the profiteering in this district, with confidence the proper remedy will result from the Government's activities."

BRITISH TO PUNISH FOOD PROFITEERS

LONDON, Aug. 7.—Great Britain purposes establishing a central authority to deal with profiteering. government's case against the five big packers will be placed before the federal grand jury, which meets at Chicago three weeks hence. This means that criminal prosecution will be instituted.

Charles F. Clyne, federal district attorney at Chicago, said today that besides asking indictments under the criminal sections of the Sherman anti-trust law, civil suits would be brought under that statute and that in addition the packers would be prosecuted under the food control act on charges of hoarding.

WEBB SAYS CAL. LAWS INADEQUATE

Attorney General U. S. Webb will reply late this afternoon to Governor William D. Stephens' request for information as to the adequacy of California laws which might be invoked to reduce the high cost of living.

While the attorney general had not yet completed his survey of the California law on the subject at noon, he was inclined to believe that the statutes of the state are inadequate.

In other circles it was pointed out that should Webb find the statutes of the state too vague to cope with the situation, a special session of the legislature might be urged to secure the legislation needed to launch a state wide movement against the soaring cost of living.

WILSON AND CABINET TALK PROFITEERING

DYNAMITE FIEND JUMPS TO DEATH

LOS ANGELES, Aug. 7.—Leaping to his death from the eleventh story of the hall of records building shortly after midnight, Charles H. McGwire, assistant engineer of the board of public utilities, brought to a sudden halt the plans of the district attorney to ask the grand jury to indict him today on a charge of placing the bomb Sunday morning at the home of Oscar W. Lawler.

RY. STRIKE GETS WORSE HOURLY

WASHINGTON, Aug. 7.—Director General Hines conferred with President Wilson for nearly an hour this afternoon, discussing the strike of railroad shopmen. He carried to the White House information that 80,000 shopmen were out and that the situation was becoming more acute hourly.

WILSON IS ASKING LARGER FOOD POWER

WASHINGTON, Aug. 7.—President Wilson will address Congress in person Friday to make recommendations for legislation designed to aid in reducing the cost of living. This was learned today at the White House.

That one of the President's recommendations will be "more teeth" to make existing laws effective to cope adequately with profiteering is the general belief of officials. The President, it was suggested, also might ask Congress for a modified licensing system under which margins of profit could be controlled so as to bring an immediate reduction in prices.

Alice Brady's latest Select Picture, "Marie, Ltd." will be seen today at the Richmond theatre.

"Marie, Ltd." is the story of a girl who gave up a career in life in order to try and repay her mother for having sent her through college. She takes a position in her mother's millinery establishment—a large, flourishing one on Fifth Avenue—where she attracts attention by her refined personality and startling beauty. Colonel Lambert, an old rounder, falls in love with her. Her mother favors the match but Drina does not love him and says she will not marry him. Blair Carson, a young man whom Drina met on the train coming East, steps in at a very opportune moment and a threatening scandal is avoided. Happiness for all concerned is the result.

TOWN SMASHES CARS OVER RAISE IN FARE

MUSKEGON, Mich., Aug. 7.—Muskegon today is quiet following a night of rioting which started over plans to raise street car fares here to seven cents. During the trouble last night street cars were overturned in the streets, windows were smashed and the cars generally wrecked.

More than four miles of tracks in the heart of the city are piled with shattered cars.

Another outbreak is expected and citizens have asked the mayor to call for state troops.

Cliff Weldon is building a fine addition on his residence, out toward the 24th ranch, and will soon have some house. He works on it between shifts, which is a sensible stunt, well worth of emulation by a whole lot more of our people. Get a home, no matter how small, and then build on later as you can. Beats paying rent a mile.

Miss Jane Carr-Breck has a letter from "Dad" and "Ma" stating that their party has bagged three fine deer. Dad was always great on that, only it was spelled d-e-a-r. If we don't get a venison steak, there is going to be blood on the moon.

BOUND VOLUMES OF THE THINKOGRAPH MAGAZINE

This office has on hand yet about 150 handsomely bound volumes of the Thinkograph magazine, handsomely printed on fine book paper and profusely illustrated. These sell for 50 cents each and as soon as these remaining few are gone they will be entirely out of circulation. They contain some of the best writings of Editor Euland and in magazine form made quite a hit all over America. There are also about 100 copies of stapled volumes, at 25c each. There will never be any more of either of these books, so if you wish to preserve one or more, now is the time. The prices quoted are less than actual cost.

STIRRING APPEAL TO LOCAL SOLDIERS

At the meeting of the Richmond Post Legion of Honor last night the following communication was read from Thornwell Mallally, chairman Army and Navy Participation Committee:

We are herewith making an appeal to the members of the American Legion of Richmond, asking that they register at our headquarters, 665 Market street, San Francisco, giving their names and addresses, as well as the name of the unit in which they served, either in the army or navy, as it is necessary that we have this information at the earliest possible moment to assist us in making up the various units for the parade.

The Post went on record strong for Ladies' Day of the big celebration, and desires that all soldiers, sailors and marines bear in mind that that day is to be in honor of womanhood, in honor of the women who helped win the war, the Red Cross workers and all other women who so nobly did their part in the great world struggle.

The Post asks all loyal and patriotic service men to register with Colonel Levi Boswell at once at local headquarters next the post-office, so he in turn can register them as participants in the great parade in San Francisco. Do this now, buys, in honor of your mothers, sisters, wives and sweethearts!

Richmond Post No. 10 and all our service men are to be the honored guests of San Francisco on parade day, and all should get in line now, at the earliest opportunity. The parade will probably take place September 2.

Women's Meeting At Baptist Church

Rev. Earl Bassett, pastor of the First Baptist church, is planning two special Sunday night services at the Baptist church. The first one will be held Sunday night and will be for women only, including girls over 12. The second meeting will be held one week from Sunday night and will be for men only.

This Sunday night in the talk to women, Mr. Bassett will speak of the associations of girls, the dangers to womanhood, and the problem of child-training.

Rev. Bassett will try to bring some of his most vital and important messages for these last three Sundays before he leaves Richmond to enter into the evangelistic work.

Every woman in Richmond should hear this sermon Sunday night at the Baptist church. Special solos will be rendered by Mrs. Bassett and by Mrs. Kettlewell of Healdsburg.

Candidates For Chief

(Continued from Page One) here when Macdonald avenue was a wheatfield. Mr. Gardner claims to be capable in every respect for the position, and says, also, that all other things being equal the preference should be given to a home man.

The application of Hilda was not considered for the reason that he was not willing to accept the position at the present rate of salary and demanded a raise to \$300 a month.

It is not believed now that Councilman Watson will be back in time to vote on the question, as it has to be settled next Monday night.

Citizen Says We Are All To Blame

(Continued from Page One) detriment of its buying power.

4. The Wholesalers, Jobbers, Retailers. Because (a) They are up against the high costs of doing business. (b) They needlessly overlap and multiply the cost of distribution. (c) They needlessly intervene and increase the costs of breaking goods into small portions. (d) They conceal their profits which on some articles are many times what they are on others. (e) They spend millions of dollars for advertising which are added to costs. (f) By their aggressive advertising and selling they force goods upon the public for which there is only an artificial demand. These goods are always high. (g) They debase goods and give short measure.

5. The Labor Unions. Because (a) They increase the cost of labor which is always added to cost of production, together with the increased costs of handling more capital. (b) Every cent of damage, loss or expense, incurred by strikes, walkouts, sabotage, etc., is added to the costs of production.

6. Wage-earners in general. Because (a) Instead of each one doing a bit toward economical production they do as little as they can in any way they can and still keep on the pay roll. (b) Every cent of extra expense caused by an inefficient employee is added to the cost of production and decreases the exchange value of wages.

7. The Consumers. Because (a) They are culpably ignorant of true values. They should insist on knowing how much a merchant is charging them for the service he performs. (b) Their methods of buying and using goods are inefficient, wasteful and unsystematic.

In short it is obvious that the QUEST FOR PROFIT is responsible for the H. C. L. and it should be equally obvious that anything besides the universal acceptance of social utility rather than private profit as the first and leading motive for wealth production will only be palliative and not remedial.

I am very cordially yours,
